FEURICH

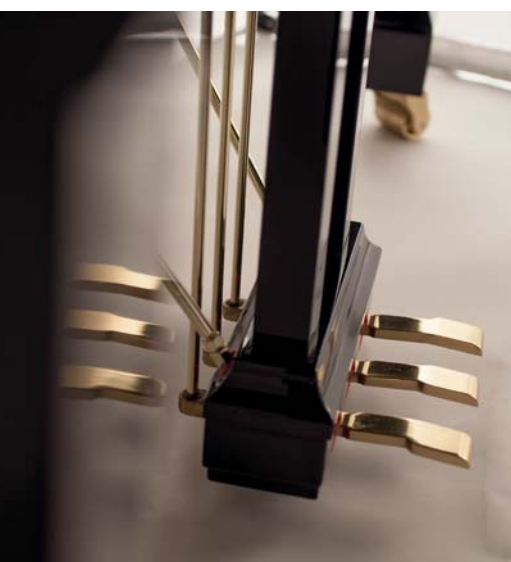

Tradition & Innovation

Mod. 178 – Professional II

Technical Specification

- Climate-resistant laminated pinblock provides excellent and long-lasting tuning stability.
- CNC produced cast-iron plate is the foundation for high precision assembly
- A newly constructed FEURICH action with a keyboard made of solid Austrian spruce with tight growth rings helps to generate a fast and precise touch.
- Paulello stainless steel wire create richer tone with greater string longevity
- The intricate, modern construction enables a beautiful, long-lasting tone.
- Robust pedal lyre construction and the special FEURICH brass solid cast pedal provides noiseless easy to handle pedalling that requires minimal technical maintenance.
- Typical FEURICH design: open-work music stand ensures tonal reflection is not compromised by the music stand.
- Specially big rollers for easy shifting.
- The soft fall for the keyboard cover and black keys made of real wood accentuate the extraordinary quality of the piano.
- Available with the 4th pedal option “© pedale harmonique”.

Used all over the world in music schools and conservatories, equally appreciated by piano technicians and pianists!
